

Benefits of Linked Data

between ACT! by Sage and Sage MAS 90/Sage MAS 200

Benefits of Central View for Customer Information

- Though front office (Sales) and back office (Accounting) have different needs they do have certain data in common. Enterprise Accounting Systems Sage MAS 90 / Sage MAS 200 provide a bi-directional link to ACT! by Sage allowing users to synchronize data between the two systems. This synchronization reduces duplicate effort and minimizes data entry errors and eliminates problems associated with dated information.
- After Linking Sage MAS to ACT! by Sage sales staff is able to see accounting data, customers and inventory items instantaneously. Other data available includes:
 - Current orders & inventory
 - Order & invoice history
 - Payments
 - Miscellaneous accounting data (*credit limit, credit hold, ship method, balance due, etc.*)
 - Return inventory items
 - Inventory items sold

Benefits of the link between ACT! and MAS

- 1. Elimination of duplicated data-entry*
- 2. Up to the minute inventory and order data available to the sales staff*
- 3. Data modifications within ACT! are reflected in MAS*
- 4. Leverage the power of Microsoft Excel to analyze data*
- 5. Provide sales staff with historic order information.*
